PROFESSIONAL SUMMARY

Final-year ECE student at JIIT Noida with strong foundation in Data Analytics, Python, SQL, and Machine Learning. Built end-to-end analytical systems with quantifiable results including a 98% accuracy intrusion detection model. Certified in Data Analytics and AI/ML; seeking a Data Analytics role where engineering rigour meets business insight.

EDUCATION

B.Tech — Electronics & Communication Engineering – 7.2/10 *2022 – 2026*
Jaypee Institute of Information Technology, Noida, India

CBSE 12th Board Examinations - 94.8% *2022*
Summer Fields School, New Delhi, India

TECHNICAL SKILLS

Languages: Python, C++, SQL, MATLAB, HTML, CSS, JavaScript
Data & Analytics: Pandas, NumPy, Scikit-learn, SMOTE, Chi-Square Feature Selection, ROC-AUC Analysis
ML / AI: Random Forest, KNN, Decision Tree, Model Evaluation, Class Imbalance Handling
Tools: Jupyter Notebook, Google Colab, Keil, Proteus, Microsoft Office, Power BI | OS: Windows, Ubuntu

PROJECTS

Silicon-Gallium Arsenide Resonator Based Terahertz Biosensor (Research) *2025 – 2026*

- Designed a high-Q dielectric–graphene resonance biosensor enabling label-free detection of Cholera and via tunable electrical and magnetic resonances comparable to state-of-the-art literature.
- Leveraged 2D graphene's ballistic transport and a heat-resistant dielectric architecture to support multi-analyte sensing and advanced biosensing applications.
- Finally applied Machine Learning techniques such as SVM and Random Forest to classify samples as contaminated or safe.

Intrusion Detection System — Wireless Sensor Networks (ML) *2025*

- Achieved 98% accuracy with precision, recall, and F1-score all above 0.95 across KNN, Decision Tree, and Random Forest classifiers; applicable to enterprise IoT cybersecurity threat detection.
- Applied SMOTE oversampling and Chi-Square feature selection to resolve class imbalance; confirmed Random Forest as the most effective algorithm via ROC-AUC and confusion matrix analysis.

Smart Device for Women Safety (IoT / Embedded) *2024*

- Developed a GPS-based safety device with a panic button that sends real-time SMS alerts with live GPS coordinates to a pre-configured emergency contact — end-to-end hardware and software integration.

CERTIFICATIONS

Introduction to Career Skills in Data Analytics — *LinkedIn Learning*
Artificial Intelligence and Machine Learning — *Kodacy*

AWARDS & LANGUAGE PROFICIENCY

School Academic Scholar — Summer Fields School (2014–15, 2017–18, 2018–19, 2019–20)
English Proficiency: *IELTS Overall Band 8.0 (Listening 8.5 | Reading 8.5 | Speaking 8.0 | Writing 7.0)*
